Chief, Nuclear

	Energy Division, Office of Scientific Intelligence
SUBJECT:	Nuclear Intelligence Panel Report
ASD(I) Staff, rem Intelligence Panel He stated that the anti-ship missiles warheads to be ef	Steeg. Director for Reconnaissance and EW Systems, arked to me on 13 June that he had just read the Nuclear Report (minutes?) dated 2 May 1975 Panel (which met on 13-14 March) concluded that Soviet of CEP's were so large that they would require nuclear fective. Since these missiles use either active or semi-storge was somewhat at a loss as to how the Panel could CEP estimate.
	George that I'd refer the matter to you and suggested If you should care to initiate the communication, his it =74549.
